

## **Supervisor List**

### **List of Homeopaths working as supervisors**

As part of its commitment to Continuing Professional Development, the Society is keen to encourage members to engage in ongoing supervision, on either an individual or group basis. In order to help students, Newly Registered Members (NRMs) and other practitioners to find supervisors, we have compiled this list of Registered Members who are currently working as supervisors.

Practitioners in the following list have agreed to use the Code of Ethics and Practice for Supervisors to guide their supervisory practice. Copies of the code are available on the website as well as from the Northampton office.

Because at present there is no formal qualification for homeopaths wishing to work as supervisors, we have asked all who wish to be included on this list to give us details of any relevant training and experience. If you would like to see these details, please contact the supervisor concerned.

Supervisors who take on the task of supervising Newly Registered Members need familiarity with CPD planning and reflective cycles. In order to support NRMs during this period we recommend that they seek supervision from **approved supervisors** who satisfy this and (other criteria). These are indicated by the letter '**R**'. The letter '**G**' indicates those supervisors who are experienced in facilitating group supervision.

The Code of Ethics and Practice for Supervisors draws attention to the need for those working as supervisors to be trained, practised and experienced in the modes of supervision they employ, and to be in regular supervision themselves. The Society provides information about a range of courses and seminars offering training and support.

**Supervisors are listed by county and metropolitan area; their contact details can be found in the Society's online Register: <http://www.homeopathy-soh.org/>**

Liz Wootliff
