

SFHCNH16

Integrate and evaluate information about individuals' health and well-being within the context of homeopathy

Overview

This standard is about the work that a homeopath will do to integrate and evaluate information about the individual's health and well-being. Users of this standard will need to ensure that practice reflects up to date information and policies.

SFHCNH16

Integrate and evaluate information about individuals' health and well-being within the context of homeopathy

Performance criteria

You must be able to:

- P1 ensure the information is full and accurate
- P2 encourage individuals to provide further information and/or agree how such information can be obtained if necessary
- P3 evaluate the information using strategies which are:
 - P3.1 appropriate to the symptom picture
 - P3.2 appropriate to the goal and stage of treatment
 - P3.3 consistent with principles and practice of homeopathy
- P4 use appropriate homeopathic strategies to analyse and integrate all of the information available to prioritise the most characteristic symptoms and patterns in the case
- P5 note future reference symptoms and patterns which are not included in the initial prioritisation
- P6 explain the outcomes of the evaluation to the individual in an appropriate manner, level and pace
- P7 review with the individual their priorities and goals for homeopathic treatment in the light of the evaluation
- P8 record the outcomes of the evaluation
- P9 complete and maintain records in accordance with professional and legal requirements
- P10 seek advice and support promptly from an appropriate source if it becomes apparent that professional discussion and supervision is needed

SFHCNH16

Integrate and evaluate information about individuals' health and well-being within the context of homeopathy

Knowledge and understanding

You need to know and understand:

- K1 effective strategies and methodologies for analysing, integrating and synthesising a wide range of information
- K2 the relevance and relative importance of the different aspects of the case for treatment planning and prescribing
- K3 ways in which symptoms may be suppressed or altered by other factors
- K4 principles of causation and totality: the relevance of what might have caused the illness and the importance of taking a full case history and symptom picture
- K5 principles and methods of categorising symptoms, including:
 - K5.1 physical/emotional/mental/general/particular
 - K5.2 concomitant
 - K5.3 complete/incomplete
 - K5.4 common
 - K5.5 characteristic
 - K5.6 striking, individualising symptoms ('strange, rare and peculiar')
 - K5.7 symptoms of 'indisposition'
 - K5.8 symptoms of miasms
 - K5.9 exciting and maintaining causes
 - K5.10 pathognomonic symptoms
 - K5.11 iatrogenic symptoms
- K6 the relative value of symptoms and patterns in terms of:
 - K6.1 intensity
 - K6.2 level of detail
 - K6.3 completeness
 - K6.4 frequency and duration
 - K6.5 rhythm/periodicity/onset
 - K6.6 aetiology
 - K6.7 characteristic nature
 - K6.8 susceptibility
 - K6.9 persistence
 - K6.10 expressions of a major theme
 - K6.11 summaries or symbols of the individual as a whole
- K7 the nature, purpose and importance of prognosis in homeopathy, and how this differs from conventional medical prognosis
- K8 factors to consider when evaluating a case, including:
 - K8.1 vitality
 - K8.2 age
 - K8.3 nature and duration of symptoms
 - K8.4 medical history (individual and family)

SFHCNH16

Integrate and evaluate information about individuals' health and well-being within the context of homeopathy

- K8.5 aetiology
- K8.6 miasmatic influences
- K8.7 suppressive factors
- K8.8 exciting and maintaining causes
- K8.9 current conventional prognoses, treatment and any medication being taken
- K8.10 other treatments the individual is undertaking
- K8.11 experience and effectiveness of previous treatment (homeopathic and other)
- K8.12 the individual's expectations and preferences
- K9 principles of the direction of cure, the return of symptoms and their application
- K10 how to access, understand and use information on the effects , side effects and interactions of drugs and substances
- K11 the dangers or consequences of individuals withdrawing from drugs and substances
